 Remember me, 400

Massanutten gap- Stand on the White House bridge at sunset and the equinoctial sun will set in this gap.

THE MASSANUTTEN PIPE- This pipe is not unlike a Quaker hat. Probably the Indian who made it attempted to simulate the hat of his friend William Penn. It is made of black stone and has a hole thru one stem. It was found by Reuben Ruffner in 1838, below the mouth of Lick Run on the Ruffner farm. Mr. J. W. Ruffner lives here now and has the pipe. His grandfather, John Ruffner, built the brick mansion wherein he lives.

THE MASSANUTTEN MILL- Pioneer mill and miller. This is probably one of the oldest if not the oldest mills in the Shenandoah Valley, built of solid stone, and in as good a state of preservation as it was when it was built. Abraham Strickler no doubt used this mill as early as 1730 on his Egypt plantation. It is a solid stone bowl about as large as an ordinary washtub, probably not so wide but a little taller. It has a hole drilled from the outside to the bottom of the bowl a passage for the meal to escape as it was ground by the pestle.
